Critiquing Matthew Hindman's "The Myth of Digital Democracy" | TechPresident

Matthew Hindman. The Myth of Digital Democracy reveals that, contrary to popular belief, the Internet has done little to broaden political discourse but in fact empowers a small set of elites--some new, but most familiar. Matthew Hindman is assistant professor of political science.

Your email address will not be published. Thefactofthematteristhatourpoliticsisquiteopenanddiscussionofitis Perhaps we cannot afford to let go of yet another dream, to have yet another utopian island ruined - that is to say, humanized - by reality. The author examines the idea that the Internet leads to a broadening of political discourse and gives new voice to individuals who have not been part of the discussion in the past.
