Junior doctors starting medical practice, for example, are granted a wider tolerance range, which is narrowed down over time: . Description: This session presents an overview, methodology, and results of an experiential international communication learning exercise as well as offers guidance on how to set up a similar international learning experience. In our talk we focus on the concept Person, on its linguistic properties and on its role in the construction of identity. What are comments? Need an account? Buchan J. First, while physics teachers need have no fear that their pupils will confuse physics and mathematics, foreign language teachers are more wary of interfering influences from the first language or other languages their students have learnt. Wong A, Lohfeld L.
