A well-articulated and coherent programme is required not only
to convince western governments that assistance will be
effective but also to help restore popular credibility among
the Russian population in the possibility of success. The
greatest source of disorientation, however, has come from the

belief that economic policies can be advocated in an institutional vacuum. Tools Request permission Export citation Add to favorites Track citation.

Regarding gas policies, it not only increased the political engagement of the public but also led to a more active role for the government. It is then that the inevitable recession sets in, the recession being the reaction by which the market economy readjusts itself, liquidates unsound investments, and realigns prices and outputs of the economy so as to eliminate the unsound consequences of the boom. Denizer, A. And the problem has grown more serious since the financial crisis. You can help correct errors and omissions. The wave of populism marks the return of class as a central agency in politics, both in the UK and the US.
