For it is not the large group that corrects individual bias, but the presence of many different perspectives in such a group, that independently of one another, need to lead to contrary views and therefore have the potential to reduce bias [86]. Contemporary theories support the view that the future is open and unpredictable [12] and therefore Futures Research is much more a science of present-tense futures in the form of images about the future [13, 14]. Chermack, T. According to YouTube, the advanced privacy mode means that the data specified below will only be transmitted to the YouTube server if you actually start a video. Thus, he left, first for France. Instead, you will need to change the setting of your Flash player.

DeutschlandimJahre[zweitausend]Entwurfe.Government
institutions and business organisations require information on

potential consequences of introduction of new technologies before they are widely implemented. The basic premise of Futures Research is therefore not the science of future-tense presents.
