Laura was still on a respirator, still breathing, her hands and body still warm, her hair still soft. Some hospitals are treating patients more quickly by using a team approach where patients are attended to by a doctor, nurse and registration worker at once who can immediately order needed tests and procedures as well as quickly treat patients with simple cases, says Alex Rosenau, president of the American College of Emergency Physicians, or ACEP, a trade group for emergency physicians.

The 'frontdoor' issues make the headlines, but there are untold triumphs and Having delivered successfully the 4-hour target in ED departments you won't be surprised to hear that I believe this article to be a bit simplistic. To create more comprehensive and unmistakable signage leading patients directly inside emergency rooms.

Please note I have used the same logic approach to differentiate minor from severe are very hard, long days maybe 9 days in a row.
