A commander should ensure that subordinate units perform those specific security tasks required by the situation. A-2 A Antitank AT ditches, craters, dry river beds, partially blown bridges, and similar obstacles are normally what maneuver forces encounter as a dry-gap-crossing obstacle.

Man-made underwater obstacles can be steel or concrete tetrahedrons or drag. All units must be capable of mounting a defense with minimal preparation, but a strong defense takes time to organize and prepare. The higher the current, the more extensive the anchorage system must be. The New York Times. Thankyou! From it, the brigade engineer determines the approximate time necessary to cross the entire brigade see Appendix D.
